DETAILED ACTION

Allowable Subject Matter

Claims 1-14,16-20,33-41 are allowed.

Claim Rejections - 35 USC § 103

Claims 21,24,25,27-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mittag et al in view of either the British '807 patent or Solazzi. Mittag et al discloses a ball mill consisting of a plurality of vessels. The vessels are not of applicant's claimed shape. Both secondary references disclose similar apparatus including the shape of applicant's vessel for efficient grinding. In order to promote efficient grinding, it would have been obvious for one of ordinary skill in the art to modify Mittag et al by providing vessels having hemispherical ends, taught to be desirable by the secondary references.

Response to Arguments

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory

action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
